

Computed Tomography (CT) Images

Prof. Dr. Lucas Ferrari de Oliveira
UFPR
Informatics Department

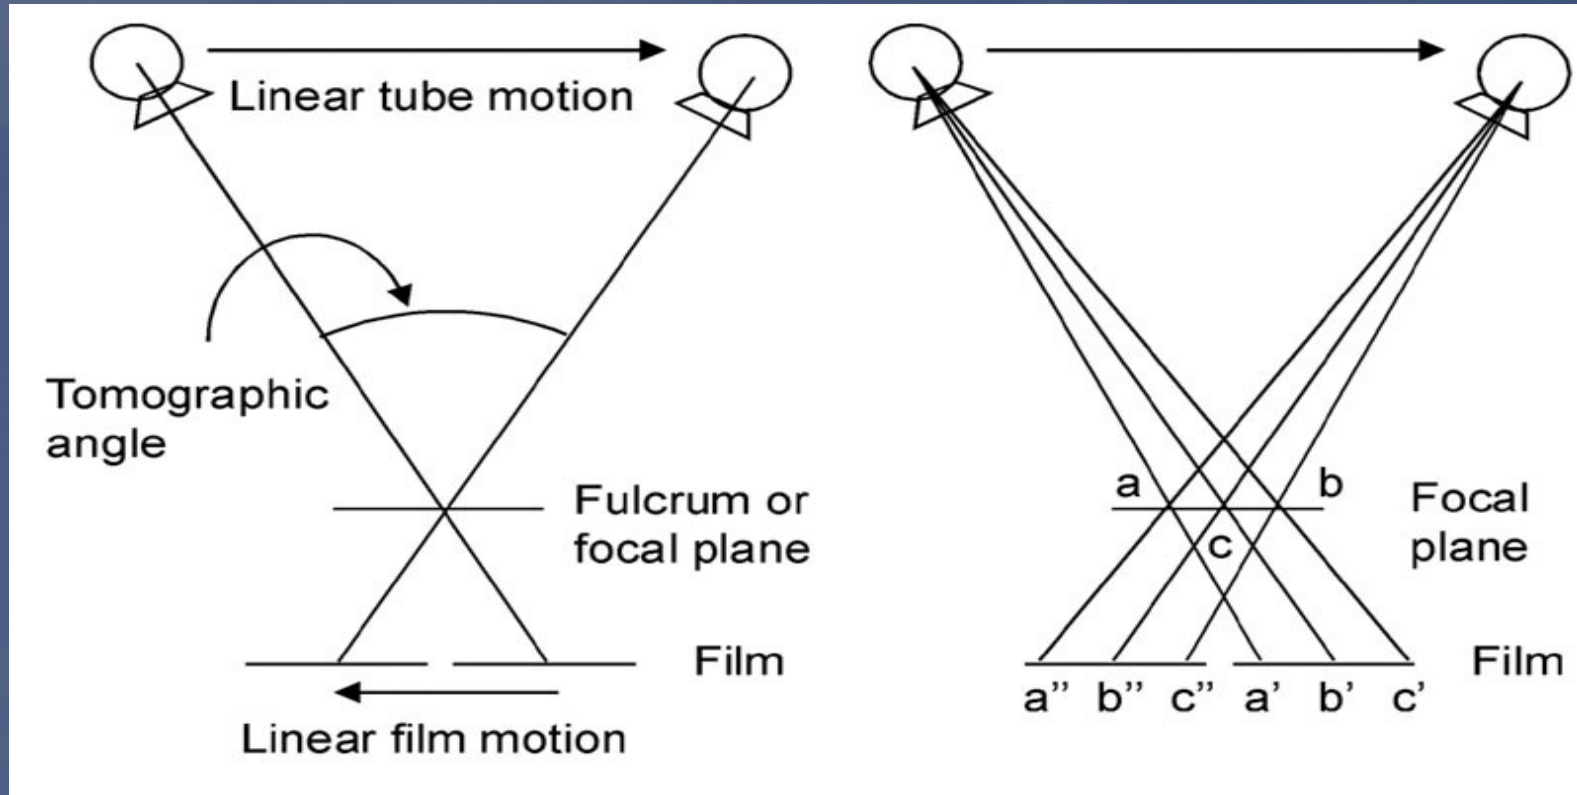

CT Images

CT Images

- History:
 - Based in the X-rays;
 - CT was the revolution in medicine;
 - Word “Tomography” is derived from the Greek words:
 - “Tomos” means to cut;
 - “Graphein” means to write;
 - Linear Tomography was the first step (1958).

CT Images

- Example:

CT Images

- CT Equipments Generations:
 - 1st Generation;
 - 2nd Generation;
 - 3rd Generation;
 - 4th Generation;
 - 5th Generation – EBCT;
 - Helical;
 - Multislice.

CT Images

- CT Equipments Generations:
 - 1st Generation:
 - Translation and rotation (1° each time);
 - High collimated (pencil beam);
 - One or two detectors;
 - Five minutes.

CT Images

- CT Equipments Generations:
 - 1st Generation:

CT Images

- CT Equipments Generations:
 - 2nd Generation:
 - Translation and rotation (6° each time);
 - Divergent (fan beam);
 - 30 detectors;
 - Twenty seconds.

CT Images

- CT Equipments Generations:
 - 2nd Generation:

- CT Equipments Generations:
 - 3rd Generation:
 - Rotation-rotation (360°);
 - Divergent (fan beam);
 - Detectors: arc-shaped (30° to 40°);
 - ~ one second;
 - Limitations: High voltage cables.

CT Images

- CT Equipments Generations:
 - 3rd Generation:

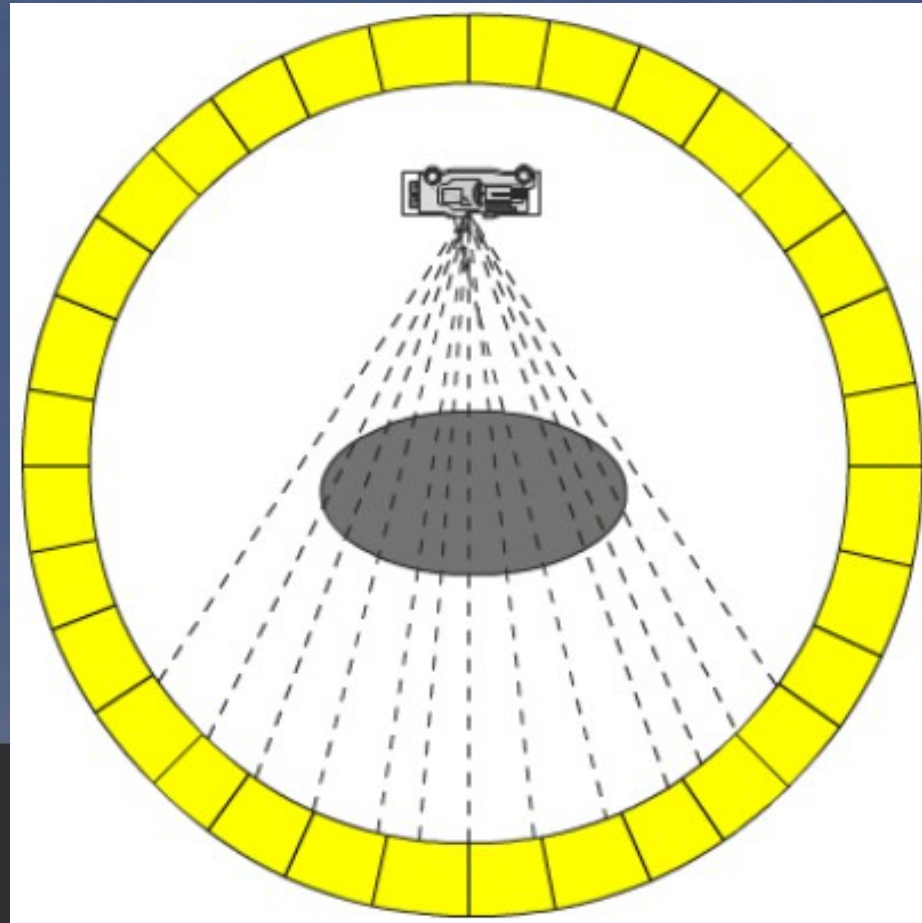

CT Images

- CT Equipments Generations:
 - 4th Generation:
 - Rotation-stationary (360°);
 - Divergent (fan beam);
 - Detectors: arc-shaped 360° (400 detectors);
 - Lower than one second.

CT Images

- CT Equipments Generations:
 - 4th Generation:

CT Images

- CT Equipments Generations:
 - 5th Generation - EBCT:
 - Stationary-stationary;
 - Electron beam (photons);
 - Tungsten rings;
 - 50 milliseconds;
 - Cardiac images.

CT Images

- CT Equipments Generations:
 - 5th Generation - EBCT:

CT Images

- CT Equipments Generations:
 - Helical:
 - Rotation-rotation;
 - Cone beam;
 - Single row;
 - Lower than 1 second;
 - Many anatomical regions.

CT Images

- CT Equipments Generations:
 - Helical:

<http://www.personal.psu.edu/afr3/blogs/SIOW/2011/12/helical-ct-lung-cancer.html>

CT Images

- CT Equipments Generations:
 - Helical:

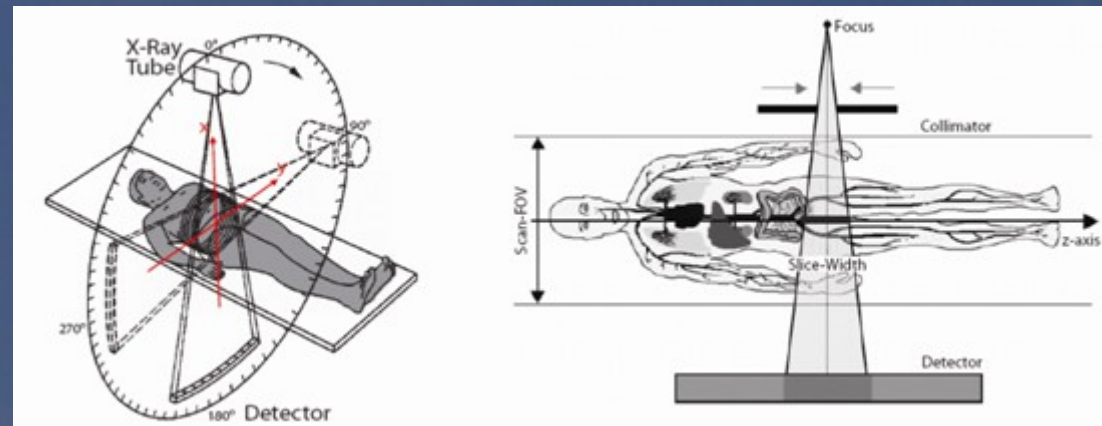

CT Images

- CT Equipments Generations:
 - Multislice:
 - Rotation-rotation;
 - Cone beam;
 - Multiple - simultaneous acquisition;
 - Fractions of seconds;
 - Many anatomical regions.

CT Images

- CT Equipments Generations:
 - Multislice:

CT Images

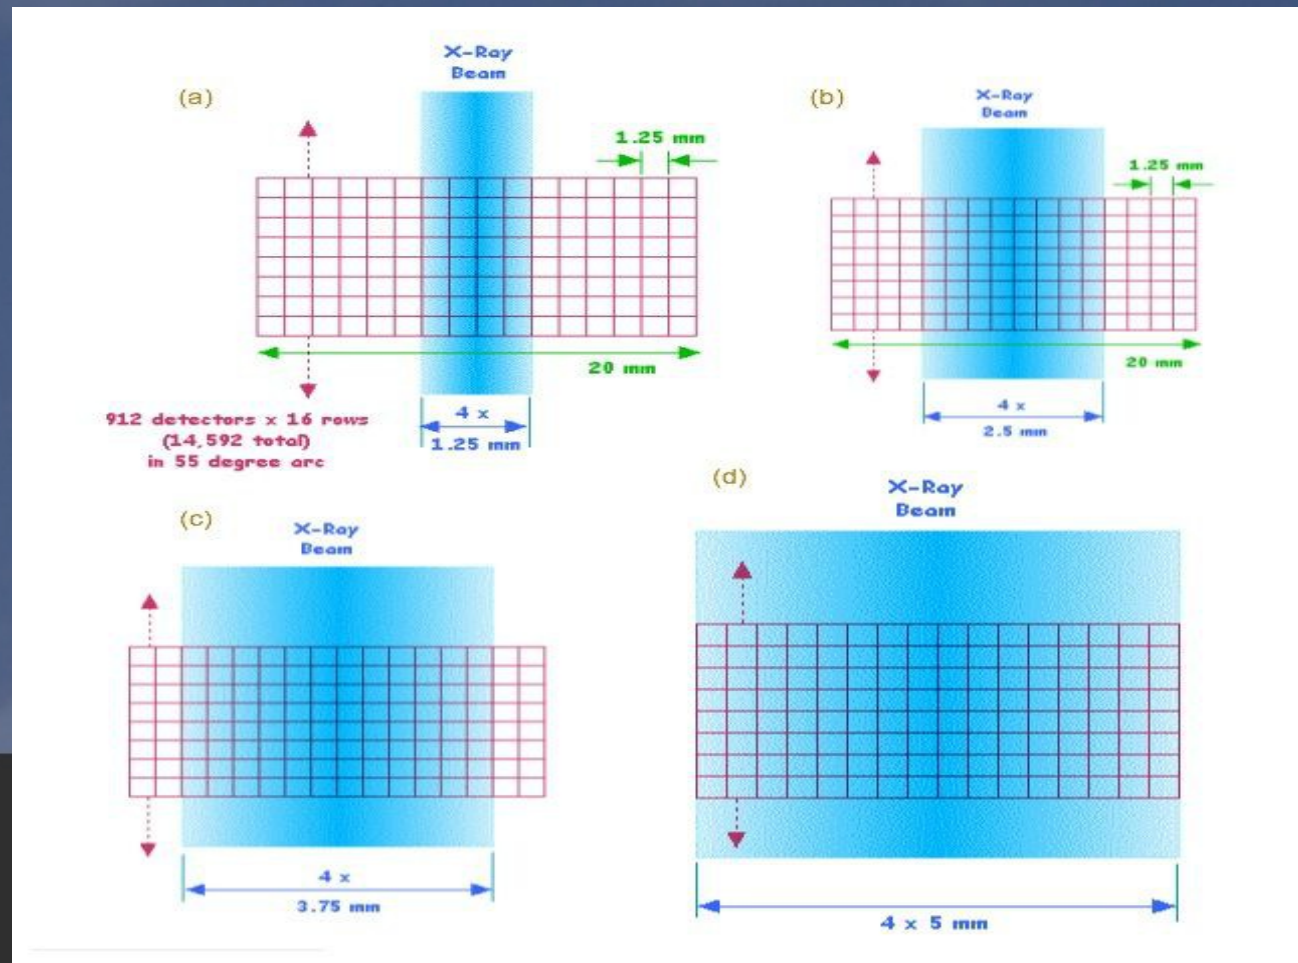

- CT Equipments Generations:
 - Multislice:

CT Images

- CT Filters
 - Bow tie Filter:

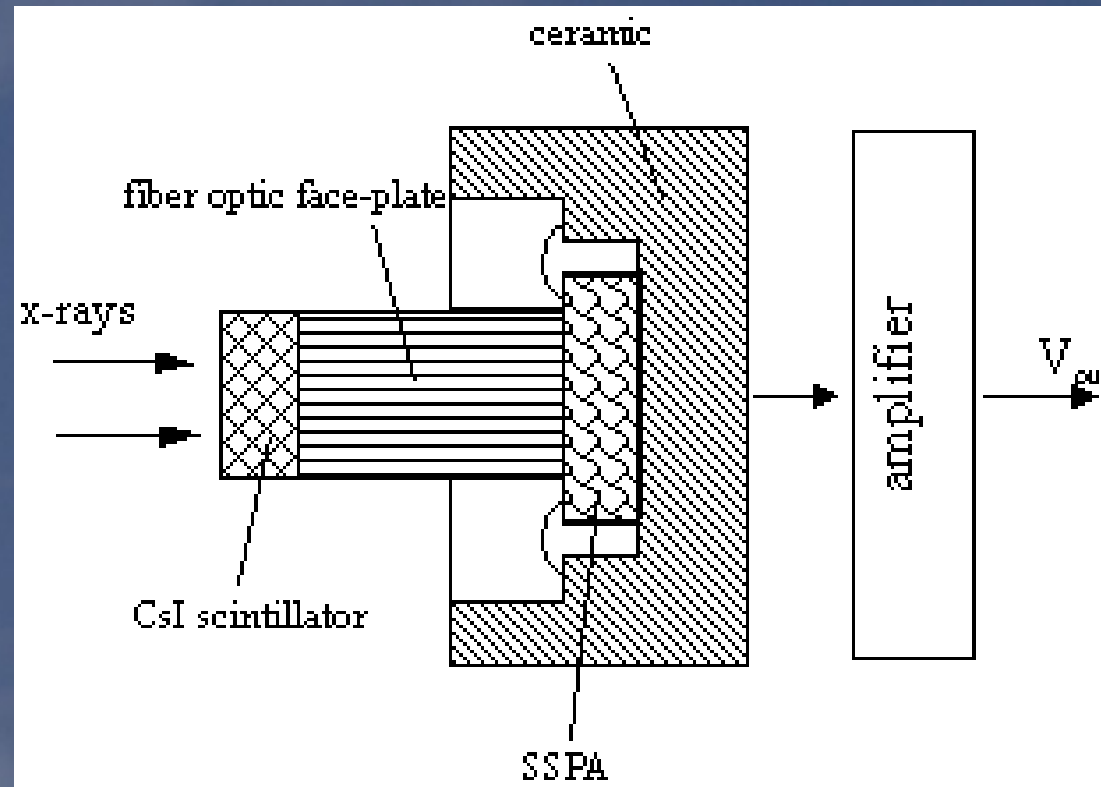

CT Images

- CT Filters
 - Bow tie Filter:

CT Images

- CT Detectors:

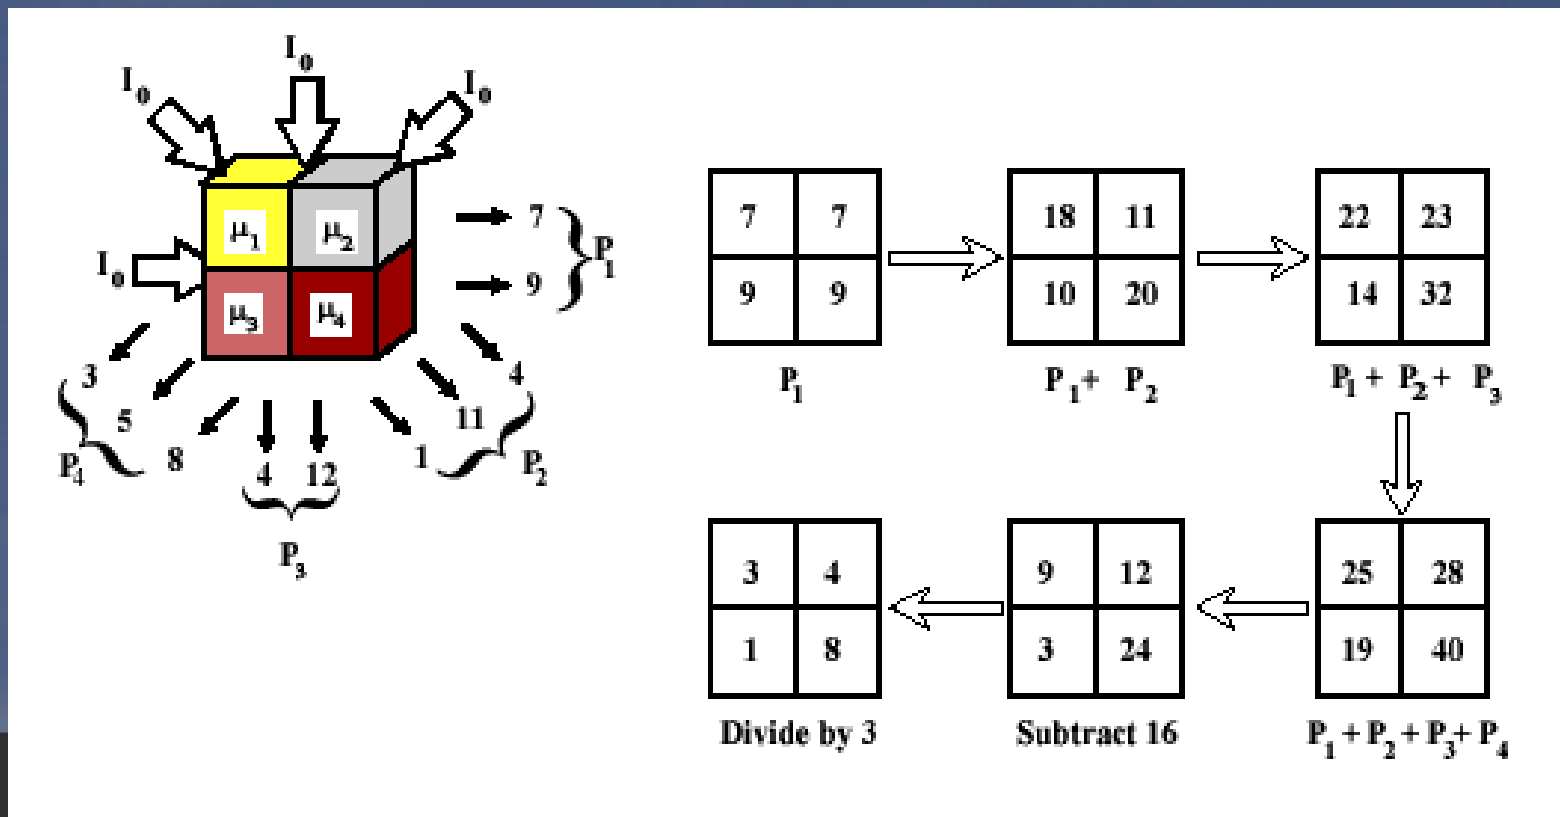

CT Images

- Image Reconstruction:
 - Many projections;
 - Back projection technique.

CT Images

- Image Reconstruction:
 - Back projection.

CT Images

- Image Reconstruction:
 - Back projection Filter.
